#### Policy Statement

The National Regulations require an accurate Incident, Injury, Trauma and Illness Report to be kept and stored confidentially until the child is 25 years old. Under the national legislation, an education and care service must record details in the Incident, Injury, Trauma and Illness Report for the following occurrences:

- an incident in relation to a child,
- an injury received by a child
- trauma to which a child has been subjected
- an illness that becomes apparent.

For the purposes of section 174(5) of the Law, the following are prescribed as serious incidents (Education & Care Service National Regulations – Reg 12)

(a) the death of a child-

(i) while being educated and cared for by an education and care service;  
or

(ii) following an incident while being educated and cared for by an education and care service;

(b) any incident involving serious injury or trauma to, or illness of, a child while being educated and cared for by an education and care service-  
(i) which a reasonable person would consider required urgent medical attention from a registered medical practitioner; or

**Examples:** Whooping cough, broken limb, anaphylaxis reaction.

(ii) for which the child attended, or ought reasonably to have attended, a hospital;

(c) any incident where the attendance of emergency services at the education and care service premises was sought, or ought reasonably to have been sought;

(d) any circumstance where a child being educated and cared for by an education and care service-
